

## USA: Circle K launches on-demand delivery across Texas

**Under-an-hour delivery is now available from nearly 600 Circle K locations via its partnership with Texas-based on-demand delivery company Favor.**

Leading convenience store brand Circle K announced it now offers delivery from nearly 600 of its locations across Texas via its partnership with Texas-based on-demand delivery company, Favor. Circle K customers can now get items delivered to their door in under an hour via Favor, with no order minimum.

This announcement comes on the heels of Circle K's initial delivery service rollout with Favor in July 2019, which included over 160 Circle K locations across the Greater Houston area.

"We are excited to expand our partnership with Favor in all remaining Circle K Texas markets across the state and to see our Circle K stores add this service beyond the soft rollout in the Houston area," said Paul Rodriguez, vice president of Circle K Texas.

"We are thrilled to continue expanding Favor's partnerships across the state to offer Texans the most

convenient service on the widest selection possible, whether it is dinner from a local restaurant or now, their favorite beer, snacks and more from Circle K,” said Keith Duncan, chief revenue officer of Favor.

Customers can get beer and other items from Circle K delivered by searching for “Circle K 21+” in the Favor App or online at [favordelivery.com](https://favordelivery.com).
