## PetroForum APAC returns to Bangkok in March 2020

Following on from a 16-year pedigree of running leading B2B forums for the Oil and Gas industry, OpenRoom Events is looking forward to their 8th rendition of PetroForum for the Asia Pacific region.

The event is being held at the Avani Riverside in Bangkok, March 3rd - 4th and brings together leading independents, NOCs and MOCs in the fuel retail sector with innovative suppliers for two days of networking, pre-arranged meetings and conference sessions. PetroForum APAC is supported by Platinum Partner, Dover Fueling Solutions, Gold Partner, PDI and Coffee Partner, Franke Coffee.

“We are thrilled to continue our participation in the PetroForum show this year in Bangkok,” said DFS & OPW Vice President and General Manager of APAC, Richard Chen. “The show is always a wonderful opportunity for us to reconnect with so many of our customers under one roof and showcase a lot of our new technology.”

The fuel retail sector is traversing a period of huge technical disruption. The widespread adoption of

alternate fuels, new energy sources, IOT technology and AI/machine learning will shape the future of the industry. As a result, the timing of the event could not be better. It is now more critical than ever for fuel retailers across Asia and Australasia to come together, exchange ideas and foster strong business partnerships. PetroForum APAC - now operational for 16 years - provides the perfect environment for leading fuel retail executives to collectively drive progress.

PetroForum APAC is one amongst a global portfolio of fuel retail events run by OpenRoom Events.
