

## Canada: MacNeil builds its smallest carwash

The company has unveiled a new interactive carwash in The Doseum to bring the carwashing experience to kids.

MacNeil Wash Systems has partnered with Bubble Bath Carwash of San Antonio to bring carwashing experiences to children at The DoSeum, San Antonio's Museum for Kids, according to a press release.

The new interactive carwash displays in the "Little Town" exhibit.

The DoSeum promotes learning and discovery through exhibits and creative programs, and with the addition of the custom-made carwash equipment, the kids will now be able to learn how a car wash works in practice.
