

## Spain: Easy Fuel to build four petrol stations in 2020

The Sevillian franchise Easy Fuel started in 2012 and since then has built 40 petrol stations in the country.

Easy Fuel, owned by César Arévalo, plans to build four gas stations in Spain during 2020, reports ABC. The service stations will be located in Madrid, Seville, Granada and Benalmádena, according to Arévalo.

During this year, the Sevillian franchise has sold four gas stations in Spain - located in Ciudad Real, Cadiz and two in Seville - and is currently working on another service station in the capital of Seville.

Easy Fuel opened its first gas stations in Huelva and Seville. Since then, the franchise has built 40 service stations, and has sold 30 of them, which are currently operated by Repsol, BP or Cepsa.

In 2019, Easy Fuel had a turnover of around 30 million euros as a result of the sale of between 25 and 30 million litres of fuel. "Each of our petrol stations sells an average of two or three million litres of fuel each year," explains founder Arévalo, who puts the net result at 10% of turnover.
