USA: Tidal Wave Auto Spa expands to Florida

With the two last openings in Florida, the company operates 44 locations throughout seven states in the United States.

Tidal Wave Auto Spa started the new year with the opening of two Florida locations, Pace and Lutz, bringing the total to 44 locations across seven states for the fast-growing company, according to a press release.

The newly constructed sites feature Tidal Wave's signature aesthetic.

Both locations will feature the Ceramic Sea Gloss wash package, a hydrophobic water repellency gloss that uses ceramic technology and works as a protectant, leaving the car with a longer lasting shine, according to the company.
