

CJ Lang adds brakes foodservice to logistics team

This new initiative brings two local Dundee businesses to work together to keep the supply chain moving as well as help protect local jobs.

SPAR Scotland wholesaler CJ Lang and Son Limited added foodservice operator Brakes Scotland drivers to its logistics team in order to help manage delivery of enhanced volumes.

With demand increasing in SPAR Scotland's 300 convenience stores, CJ Lang will start utilising Dundee based Brakes' driver and vehicle resources to enable CJ Lang to increase current delivery and logistics capacity.

Colin McLean, CEO of CJ Lang and Son Limited said: "We have access to a constant supply of food and drink products from our warehouse as we continue to experience a huge increase in orders from our SPAR stores."

"To increase delivery capacities to our 300 SPAR stores across Scotland, we have decided to work with local Dundee based foodservice operator Brakes Scotland, who will provide us with additional transport support. These drivers will support our existing core team of drivers who are doing a fantastic job," he said.
