

## UAE: ENOC Link supports nationwide disinfection drive with refuelling vehicles

**Dedicated trucks are exclusively fuelling Dubai Municipality's fleet of vehicles and equipment, saving the disinfection fleet travel time to refuel.**

ENOC Link extended its support to Dubai Municipality's national disinfection drive to curb the COVID-19 outbreak by dedicating mobile fueling trucks to provide free petrol and diesel fuel to all the vehicles and equipment used in the campaign across all locations in Dubai.

Two dedicated ENOC Link diesel trucks with a capacity of 5,000 litres each and one truck with a capacity of 2,600 liters carrying Special 95 petrol were exclusively fueling Dubai Municipality's fleet of vehicles and equipment, saving the disinfection fleet travel time to refuel. ENOC Link trucks will be located in designated locations which will be determined by Dubai Municipality's daily plans for the disinfection campaign.

"The Government's mandate to execute a nationwide disinfection drive is of grave importance for the safety of our communities and we are proud to lend our support by ensuring that their fleet has

uninterrupted access to fuel, irrespective of their location,” says Group CEO of ENOC, Saif Humaid Al Falasi.

“Today we see companies, organisations and members of the community come together to support the government in its efforts to combat the COVID-19 outbreak. We recognise the value of these initiatives and how they will help us in fighting this global pandemic,” says Director General, Dubai Municipality, Dawood Al Hajeri.
