

USA: Clean Energy expands RNG filling station network

Clean Energy announces new station constructions and renewable natural gas fuel contracts for refuse, transit, trucking and municipal customers.

Clean Energy Fuels Corp. announced new fuel agreements for its Redeem renewable natural gas (RNG), along with multiple station expansions to accommodate the continued demand for the ultra-low carbon fuel produced from organic waste, across key sectors of the transportation industry.

“Despite this unprecedented challenging time that the country is experiencing with COVID-19, Clean Energy continues to expand the use of a clean, ultra-low carbon fuel to fleets,” said Chad Lindholm, vice president, Clean Energy. “Many of our customers including heavy-duty trucking, refuse, and transit agencies are performing heroic duty by continuing to operate under extreme difficult circumstances. We applaud them and will support them any way we can.”

Clean Energy has completed a time-fill station upgrade for the City of Chesapeake, Virginia; the construction of its fourth station for USA Hauling at their Waterbury, Connecticut; and the construction

of its fifth station with South Jersey Gas at the Cape May County, New Jersey. The company also announced the update of its natural gas station in the City of Long Beach, California.

Clean Energy has signed contracts with Republic Services in Las Vegas to upgrade station equipment and add 92 fueling spots of RNG; with Republic Services in Chula Vista, California, for a station upgrade that will add 35 fueling spots; with Recology King County, a Seattle-based waste management company, for a 10-year operations and maintenance agreement for a station; with the County of Sacramento to provide maintenance services at the County's CNG and LNG station; with refuse company Tidewater Fibre Corporation in Chesapeake, Virginia, to extend its service contract at a CNG station fueling around 40 of its CNG refuse trucks; with FCC Environmental Services, Florida, it has signed a multi-year CNG station maintenance agreement for their Volusia County operations.
