

## USA: ZIPS Car Wash opens new centre in North Carolina

The new location in Oteen, Asheville, is ZIPS' fifth one in the area.

ZIPS Car Wash has opened its newest location in the Oteen neighborhood of Asheville, North Carolina, according to a press release. This new car wash adds to the four locations ZIPS already operates in the city of Asheville.

“We’re looking forward to expanding our services in the Asheville area, especially to our most loyal fans, those with an unlimited wash club membership,” said David Cook, regional manager for ZIPS Car Wash.

“Our newest ZIPS offers the latest equipment in carwashing and should bring added convenience to local customers. With free self-serve vacuums and several carwash price points, we aim to make our services affordable and convenient for every type of carwash user,” Cook explains.
