

Spain: HAM installs LNG refuelling point at Beroil site

The opening of the new mobile point in Beroil Fuentecén station brings to 51 the number of sites operated by Grupo HAM.

HAM Group has opened a liquefied natural gas (LNG) refueling point at the Beroil Fuentecén fuel station, located on the N-122 Valladolid-Soria road, Spain.

The mobile LNG unit allows refueling of LNG to trucks and heavy-duty vehicles, offering 24h service throughout the year. Payments with any debit or credit card, as well as the HAM card for professionals, are accepted at the site.

HAM currently operates 51 service stations, both fixed and mobile, spread throughout Spain and main transport routes in Europe. Its latest mobile gas stations opened in HAM Benavente, HAM Murcia, and Lidl Switzerland.

Beroil is a company dedicated to the sale and distribution of hydrocarbons in Spain, where it has an extensive network of fuel stations.
