

Azerbaijan: SOCAR opens new fuel station in Baku

The number of petrol stations operating under the SOCAR brand in the country reaches 34.

Azerbaijan's State Oil Company (SOCAR) has rolled out a new fuel station in Baku's Binagadi district, according to a company press release.

The new site is located on the Binagadi-Novkhani road and will serve drivers travelling through Novkhani, Saray and other nearby settlements on the Binagadi road.

The fuel station has seven pumps, two of which are designed for compressed gas, and the other five are for "Super", "Premium", "A-92" and diesel brands of gasoline. The station can simultaneously fill up eight small vehicles and two large trucks.

SOCAR Petroleum CJSC was established in January 2008 and is engaged in the retail trade of petroleum products, expanding the network of filling stations under the SOCAR brand. The company opened its first filling stations in Azerbaijan in May 2010.
