

## USA: Mint Car Wash to roll out third location in Georgia

**Georgia-based Mint Car Wash announces plans for building its third centre as the company approaches its two-year anniversary since opening its business in Savannah.**

Mint Car Wash is planning to open a third location in the greater Savannah, Georgia area, reports [www.savannahbusinessjournal.com](http://www.savannahbusinessjournal.com). The new 4,500-square-foot building location, expected to be completed this fall, will offer 23 vacuum spaces.

Mint Car Wash's third location will feature a state-of-the-art tunnel, and a vacuum area complete with several cleaners and air detailing tools, according to the media outlet.

"As we approach our two-year anniversary since opening our business in Savannah, we are still seeking new ways to grow, serve the city and expand the membership value of Mint's unlimited wash club," said R. Daniel Blanton Jr., Mint Car Wash co-owner. "There's major shopping around Hodgson Memorial Dr., making it a high-traffic area ideally suited for the unique service and value we deliver at Mint Car Wash."

Mint Car Wash held a grand opening for its second location earlier this year. The original Mint Car Wash opened in July 2018.
