

USA: Clean Streak Ventures acquires Bay Breeze Car Wash

The acquisition expands Clean Streak's current platform to 17 locations in Florida.

Clean Streak Ventures, an express car wash platform headquartered in Orlando, announced the acquisition of 7 Bay Breeze Car Wash and Lube sites located in Tampa Bay, Florida.

Bay Breeze is one of Tampa Bay's largest car wash operators, offering express and full-serve washes, detailing and quick lube services. The acquisition expands Clean Streak's current platform to 17 locations across Tampa Bay, Orlando and Naples.

"We are thrilled to have worked with the Clean Streak team. Their desire to retain our employees was an important factor that provided us with confidence our washes and people would be in good hands," stated the former owner of Bay Breeze, Keith Feltner.

"Clean Streak continues to execute on its plan to build an operator-led car wash platform. We were looking to grow our presence in Florida and Bay Breeze is an attractive addition to our portfolio. We are excited to invest a significant amount of capital in the locations and bring our financial and

operational resources to the company," said CEO of Clean Streak, Tom Welter.

Clean Streak is actively seeking opportunities to expand its geographic footprint through acquisitions or partnerships, and tuck-ins or new developments in its existing markets.

Clean Streak Ventures is a portfolio company of MKH Capital Partners, a Miami-based private equity firm.
