

Azerbaijan: Azpetrol opens new fuel station in Baku

Azpetrol's latest addition in Baku city brings its total number of fuel stations in Azerbaijan to 93.

Azpetrol Ltd. has opened its newest fuel station in Baku's Nizami district, bringing its total number of fuel stations in Azerbaijan to 93 sites.

The new fuel station in Baku was opened with the participation of General Director of Azpetrol, Jeyhun Mammadov, and other collaborators of the company.

Azpetrol informed in a press release that the company will build next year a "Hotel SPA & Fitness" center next to the fuel station.

Azpetrol opened its flagship fuel station in 1997 in Baku, and is today one of the largest employers in Azerbaijan. Azpetrol's network is composed of 88 fuel stations, 5 natural gas stations, 4 CNG filling stations, and 16 electric charging stations covering Azerbaijan's main economic zones.
