

## Vivo Energy Mozambique opens new Engen station

**The company operates a growing retail network in the African market.**

Vivo Energy Mozambique inaugurated the first service station under the Engen brand in 2024. The service station is the 9th service station located in Maputo.

“These infrastructures are the result of the commitment to grow the network of service stations and increase the range of petroleum products on offer with the highest quality standards and increasingly efficient services,” said Moussa Konate, Managing Director at Vivo Energy Mozambique.

“This expansion of the service station network demonstrates Vivo Energy Mozambique's ongoing commitment to providing high quality petroleum products and efficient services,” he added.

By investing in the development of this kind of infrastructure, the company aims to meet the mobility needs of Mozambicans, and a significant contribution to the country's economic and social development.

The company has 43 service stations in Mozambique.
