

One Stop celebrates 27 openings in 2023

The retailer keeps growing its convenience store network after surpassing 1,000 locations across the UK.

One Stop has announced a total of 27 brand-new company stores opened across the UK between March 2023 and March 2024.

This is the most stores the convenience retailer has opened in a single year for the past five years. This milestone showcases the brand's commitment to provide convenient and affordable shopping experiences for their customers, whilst creating over 300 new jobs in local communities.

Over the past year, One Stop has embarked on an ambitious expansion journey. From bustling communities to busy roadside locations, each new store has been carefully chosen to meet the needs of customers in each area.

“Our success is not only built on strong partnerships and collaboration, but also securing spaces in the right place at the right time. We remain committed to delivering exceptional service and value to customers in every community we serve,” said Nick Riches, Store Acquisitions Lead at One Stop.

With the new stores located in towns, cities and villages across the country, the company is keen to continue its expansion plans nationwide, from Cornwall to Northumberland, over the forthcoming years.

One Stop stores have been serving local communities throughout the UK for almost 50 years, with a portfolio of over 1,000 company owned and franchise stores.
