

Wenzhou Blue Sky Petroleum Go for Gold at PetroForum MENA 2015

Chinese manufacturer, Blue Sky have set themselves the target of installing the IC Card Management system across more than 500 gas stations within the Middle-East region and view taking Gold Partner status at PetroForum MENA as an important strategic move in helping them achieve this.

The Middle East is a key target for Blue Sky; the region has the largest number of oil producing countries and is therefore a major market for the company's IC card Management System. Blue Sky Electronic offers the complete turnkey solution for petrol stations, LPG, CNG, LNG and L-CNG stations. Says Richard Jiang, General Manager at Wenzhou Blue Sky Petroleum Equipment:

"PetroForum MENA allows us to meet with the leading oil companies across the region who are some of our most important business targets. Through our partnership with PetroForum, Blue Sky can bring new products and new innovations to challenging markets. PetroForum MENA also provides us with an opportunity to demonstrate the advanced IC Card Management System, offering the best solutions for forecourt sales and products storage. It's the ideal platform to showcase our brands"

PetroForum MENA is the only showcase for the petroleum retail sector dedicated to the Middle East and North Africa and delivers leading oil companies from across the region including Emarat, Aldrees Petroleum, NAFT Services, Libya Oil, Soor Fuel Marketing, Bapco, Sharara Oil Services Petromin Corporation and Qatar Fuel (WOQOD) to name a few.

PetroForum MENA 2015 takes place on 29th-30th September at the Shangri La's Barr Al Jissah Resort, Muscat, Oman.
