

USA: Mister Car Wash enters Mississippi with seven-site acquisition

Mister Car Wash, the fastest growing car wash company in the U.S., has entered Mississippi with the acquisition of seven Venture Car Washes.

The acquisition of the seven Venture car wash sites means Mister Car Wash is now active across 20 U.S. states.

Venture opened its first car wash in Ridgeland in 2003, adding stores in Brandon, Clinton, Meridian, Flowood and two in Jackson by 2013.

"From day one of working with the Venture team it was clear we share a similar vision to offer the best customer experience and career opportunities," said Casey Lindsay, Director of Acquisitions for Mister Car Wash.

"We are proud to bring the Mister Car Wash experience to central Mississippi, marking another key milestone as we continue to expand our operations across the United States," added Casey.

The Tucson, Arizona-based company now employs close to 7,000 car care professionals with 172 car washes and 32 lube centers in 20 states.
