

Christ Wash Systems presents new “hot” car wash calendar

Car wash provider Christ Wash Systems has presented its new edition of ‘The Christ Hot Car Wash Calendar’ for 2017.

The Hot Car Wash Calendar is a mixture between the world of car wash and eroticism. The limited edition, 2-year calendar, was presented at the world trade fair Automechanika 2016 two weeks ago.

‘Christ time travel’ is the theme for the current hot car wash calendar ‘The Wash’. The pictures show top models washing luxury cars based on film posters of famous movies from the past decades.

The journey begins in 1963, the year when Franz Christ built his first roll-over car washing machine.

“What began in 2005 as a gift for business customers has now become a cult object. The Hot Car Wash Calendar is regarded each year as a highly coveted collector’s item. It is not available for purchase,” says Otto Christ.

The calendar was photographed by Mark Goldberg from Monaco.
