

## Philippines' biggest PTT station unveiled

**Thai state-owned oil and gas company PTT has brought its "Life Station" to the Philippines with the soft opening of its biggest service station in the country.**

The two-hectare PTT park station, located along the north-bound lane of Subic-Clark-Tarlac Expressway (SCTEX) in Concepcion, Tarlac, has an eight-pump gas station, a convenience store, a five-star public toilet called Restroom 20, and PTT's signature coffee shop, the Café Amazon.

It will also offer restaurants and shops making it a one-stop hub similar to PTT's Life Station in Thailand, according to a company release.

"You could expect a grand opening soon once the construction of all these non-oil establishments are completed," said Sukanya Seriyothin, PTT Philippines President and Chief Executive Officer, adding that more PTT stations are also set to open this year eyeing Mindanao as next region of expansion.

PTT Philippines has a total of 111 stations operating mostly in the region of Luzon and some in the province of Cebu.

Prior to PTT SCTEX, the oil firm built its first platinum station in the country in Lucena City, Quezon in 2015.
