

## Rubis completes acquisition of Haiti's leading fuel distributor

**Rubis has finalized the acquisition of 100% of Dinasa and its subsidiary Sodigaz, the leading distributors of fuel products in Haiti.**

After announcing the deal in February, Rubis has completed the deal to acquire Haiti's number one fuel distributor, Dinasa, which has a network of 125 gas stations.

With 600,000 cbm distributed, Dinasa operates under the national brand and in all segments of the fuel product market. Dinasa meets most of Rubis' investment criteria in its fuel distribution business: a leading player positioned on a niche market associated with the import logistics ownership.

Dinasa's sales volumes will increase Rubis Énergie's activity in the Caribbean by more than 35%.
