

Phillips 66 clinches Royal Society Health and Safety awards

Energy and logistics firm Phillips 66 has bagged the 'Winner of the Fleet Safety' trophy, 'Highly Commended in the Oil & Gas Industry Sector' award, and the 'Fleet Safety Gold' award at the RoSPA Health and Safety Awards 2017, an annual scheme run by the Royal Society for the Prevention of Accidents (RoSPA).

The three awards were presented to Phillip 66 during a ceremony at the Hilton Birmingham Metropole hotel on July 12.

"Our primary focus is on reducing and managing the HSE risks associated with employee business driving, contracted road tanker deliveries and the workplace environment. Our overarching aim is to achieve a zero incident safety record for employees and contractors," said Mary Wolf, Managing Director, UK Marketing for Phillips 66.

The RoSPA Awards, already on its 61st year, is open to businesses and organisations of all types and sizes from across the UK and overseas.

"The RoSPA Awards are the most prestigious in the world of occupational health and safety, and held in high regard around the world, as winning one demonstrates an organisation's commitment to maintaining an excellent health and safety record," said Julia Small, said RoSPA's head of awards and events.
