Dover Fueling Solutions to exhibit entire portfolio at 2018 UNITI expo

Dover Fueling Solutions (“DFS”), a Dover company that delivers advanced fuel dispensing equipment, electronic systems and payment, fleet systems, automatic tank gauging and wetstock management, is looking forward to welcoming its customers and business partners to the UNITI expo trade show from 15th to 17th May 2018 in Stuttgart, Germany.

This will be the first show at which Fairbanks, OPW Fuel Management Systems (“OPW FMS”), ProGauge, Tokheim and Wayne Fueling Systems (“Wayne”) will unite under the DFS banner. Spanning stands 5D06, 5C10, and 5D20, visitors can experience the comprehensive range of innovative fuel dispensers, automation, cloud technology, wetstock and tank gauging products and solutions available from the DFS brands, providing the industry’s only global end-to-end solution.

“I am very excited to present to our customers and channel partners the DFS family of brands together for the first time in Europe,” noted President of DFS, David Crouse. “By bringing together the collective experience, knowledge and talent of some of the most trusted names in the industry, I am very proud that we have created an organization capable of providing what no one else in the fuel

retail sector can: a true and complete end-to-end retail forecourt solution.”

Among the new products DFS will showcase at UNITI expo are: the Tokheim Quantum™ 510M fuel dispenser range, the ONE Portal™ cloud services platform, and the Wayne Helix™ 6000 AdBlue® fuel dispenser. DFS will also present the next generation of the Wayne iX Pay™ secure payment platform connected to Tokheim OASE™ (Online Authorisation and Switching Environment) and the Tokheim Crypto VGA™ Outdoor Payment Terminal. In addition, demonstrations of the Fairbanks™ Station Manager 365 online web portal, the OPW FMS Aqueous Ethanol Float Sensor, and automatic tank gauge solutions from ProGauge will be offered throughout the show.

DFS experts will also lead seminars at the UNITI expo International Forum. On 15th May at 11:00, Hob Hairston, Director, Cloud Engineering for DFS, will present on ‘How Cloud Services and Internet of Things (IOT) Impact the Forecourt Operations’. At 14:30 that day, Richard Chen, Managing Director for Asia-Pacific, DFS and OPW Fueling Components, will give his presentation, ‘Why Focus On Asia? The Dynamics of the New Asia’. At noon on the second day of the International Forum, Tom Cerovski, General Manager of Dispenser Business Unit, DFS, will discuss the impact of alternative energy on forecourt offerings. The sessions are available free of charge to UNITI expo visitors.

For more information about DFS’ products and solutions, check our supplier profile and contact us.
