

Vivo Energy unveils 80th Shell service station in Botswana

Shell brand marketer in Africa, Vivo Energy, has officially launched the Lobatse JV SACCOMALL Shell service station, bringing the total number of Shell service stations to 80 in Botswana.

Located at Maokaneng Ward, Plot 2557 next to Lobatse Civic Center, the new petrol station is part of Vivo Energy Botswana's expansion plans to bring Shell products and services closer to customers.

The launching is the result of collaborative efforts by Bilateral Complex (Pty) Ltd, a joint venture between Selibe Phikwe Miners Savings and Credit Cooperative Society (SACCOS) and LTC Itshetseng SACCOS.

The fuel station is expected to benefit the community by providing products and services as well as employment opportunities for the youth.

"These investments in our retail network expansion demonstrate Vivo Energy's commitment to developing its business in Botswana and its ambition to continue to exceed the expectations of our valued customers," said Wayne Kingwill, Managing Director of Vivo Energy Botswana.
