

Uganda: Vivo Energy strikes partnership to include pharmacies

Vivo Energy Uganda & GoodLife Pharmacy partner to include pharmacy outlets at Shell service stations.

In an effort to provide more services at its stations and expand the access to pharmaceutical products, Vivo Energy Uganda has signed a partnership agreement with GoodLife Pharmacy that will see its pharmacy stores set up within existing Shell service stations across the country.

Driven by the steady growth in convenience-seeking customers, Vivo Energy Uganda is refurbishing existing Shell service stations so that they include shops, quick service restaurants, pharmacies, ATMs, tyre centres and car wash facilities.

Goodlife Pharmacy is a fast growing pharmacy and health hub with branches in Uganda and Kenya.

“The partnership with Goodlife Pharmacy continues to reaffirm what we have always said and believed in – that convenience retail is an extension of our core business at Shell service stations,” said Gilbert Assi, Managing Director Vivo Energy Uganda.

Vivo Energy operates and markets its products in countries across North, West, East and Southern Africa.
