

Phoenix Petroleum expanding network to fuel the journeys of more Filipinos

Leading independent and homegrown oil company Phoenix Petroleum is boosting its retail presence as it continues to build and open more fuel stations in key areas nationwide.

The new stations will feature the brand's clean, modern, and sleek look and will offer Phoenix's upgraded fuels, now powered with Phoenix PULSE Technology.

"We are bringing our retail stations closer to where most motorists are, as we aspire to be an indispensable partner of Filipinos in their journeys," said Phoenix Petroleum Chief Operating Officer Henry Albert Fadullon.

Phoenix is offering these new sites to interested dealers who want to own or operate a gas station with a growing brand with complementary businesses, according to the company.

"As the fastest-growing oil company in the country today, we promise our business partners that we will help them grow their business further and farther by providing them with more opportunities, so they, too, can expand their reach and provide more Filipinos with quality options at the best value," Fadullon said.
