

Vivo Energy Kenya launches new Shell fuels portfolio

Vivo Energy Kenya has launched Shell V-Power, Shell FuelSave Unleaded, and Shell FuelSave Diesel, fuels that are designed to work with both modern and older vehicles, according to a company release.

The Shell V-Power is available in 95 Shell Service stations in Kenya while the Shell FuelSave unleaded and diesel fuels are available at Shell stations nationwide and industrial customers and commercial fleet owners through Vivo Energy Kenya B2B channels.

“We hope motorists will experience the benefits of our new fuels, enhanced with our latest DYNAFLEX technology, so that they can enjoy better journeys on the road,” said Joe Muganda, Managing Director Vivo Energy Kenya.
