

## Spanish supermarket opens second station in Mallorca

**EROSKI has inaugurated a new petrol station in the town of Sa Pobla, Mallorca, which operates as a 24-hour self-service station offering Gasoline 95 and Diesel A.**

This is the second gas station that EROSKI opens in Mallorca, the third in the Balearic Islands.

The petrol station aims to improve the offering of its shop by having more service for its customers. The station has two dispensers and has the capacity to store up to 60,000 litres of fuel, distributed between Diesel A (40,000 litres) and super 95 petrol (20,000 litres).

"We differentiate ourselves, among other things, by the savings we generate for our members and client members through their EROSKI Club card, which can also be used at EROSKI petrol stations to obtain new Travel Club points and exchange the accumulated savings for free fuel," said the director of EROSKI in the Balearic Islands, Alfredo Herráez.

BP acts as the sole fuel supplier of all EROSKI petrol stations through logistics operator CLH. Eroski finished 2017 with a network of 50 petrol stations in Spain.
