

Ghana: GOIL to open 40 new stations in 2019

The OMC has set the target of 400 sites for the end of this year.

The Ghana Oil Company Limited (GOIL) the nation's foremost indigenous Oil Marketing Company (OMC) has set the target having 400 gas stations across the country by the end of the 2019.

As a major step towards achieving that target, GOIL opened its 360th Filling Station at Adenta-Ashaley Botwe link road, reports Modern Ghana.

Patric Akpe Kwame Akorli, Group Chief Executive Officer, attributed the achievement of the nation's leading OMC to the cooperation of present and previous board of directors, hardworking management and staff, as well as customers who had demonstrated loyalty to the GOIL brand.

"We are injecting technology into our operations through automation of all service stations, in terms of stock taking, in terms of how we ensure that cash flow is improved because we don't want to leave the money in the pocket of people," said Alex Josiah Adzew, GOIL COO.

The company will be building 40 new stations through 2019 to reach its 400-site goal.
