

## AASOA - Asian American Store Owners Association

Established in 2009 the Asian American Store Owners Association has quickly tripled its membership allowing store owners to stay current on industry trends, network with other business owners, receive discounts and attend the annual AASOA Tradeshow and Banquet free.

Representing almost 1000 store owners throughout Florida and the Southeast we provide members the tools they need to grow and prosper. Almost 90% of our members are independent store owners and our data collection allows us to create buying power for them, as well as our chain store members. In addition, we keep up with industry news, send out important news via email newsletters, bring you product news and research trends.
