

CNGVA - Canadian Natural Gas Vehicle Alliance

The Canadian Natural Gas Vehicle Alliance (CNGVA) represents Canada's natural gas vehicle industry. Natural gas vehicle technologies provide proven, commercially available transportation solutions that reduce emissions while using lower cost fuel. The CNGVA's membership includes leading Canadian companies involved in research, manufacturing, fuel and infrastructure supply, vehicle conversion technology and installation, consulting and international project management. Our mission is to promote the sustainable growth of natural gas vehicles, refueling infrastructure, and renewable gaseous fuels for the benefit of Canada's economy and environment.

Our members are leading Canadian companies involved in research, manufacturing, fuel and infrastructure supply, vehicle conversion technology and installation, consulting, and international project management.

Our mission is to promote the sustainable growth of natural gas vehicles, refueling infrastructure, and renewable gaseous fuels for the benefit of Canada's economy and environment.
