

FederPetroli Italy - Federazione Internazionale del Settore Petrolifero

Before coming to you, the oil will have to travel from one country to another through difficult situations, geographical and political, in a path continually supported with agreements, contracts and cooperative relations between companies, organizations and states.

In this process FederPetroli Italy is a reference point for the Associates, through the foreign delegations, business contacts and relationships with international diplomacy, provides support and development opportunities for companies operating in international markets in the energy sector.
