

## **APPEA - Australian Petroleum Production & Exploration Association**

The Australian Petroleum Production & Exploration Association is the peak national body representing Australia's oil and gas exploration and production industry.

It has about 60 full member companies. These are oil and gas explorers and producers active in Australia. APPEA members account for an estimated 98 per cent of the nation's petroleum production. APPEA also represents about 140 associate member companies that provide a wide range of goods and services to the upstream oil and gas industry.

APPEA works with Australian governments to help promote the development of the nation's oil and gas resources in a manner that maximises the return to the Australian industry and community.

APPEA aims to secure regulatory and commercial conditions that enable member companies to operate safely, sustainably, and profitably.

The Association also seeks to increase community and government understanding of the upstream petroleum industry by publishing information about the sector's activities and economic importance to the nation.

APPEA also hosts conferences each year to exchange ideas and contribute to the development of the industry's policy positions.

### **Vision and Strategic Goals**

APPEA's vision is to achieve a growing and internationally competitive Australian oil and gas industry that makes a vital and sustained contribution to the nation's economy.

APPEA's strategic goals are to:

- Protect the industry's access to resources, offshore and onshore;
- Improve the industry's operating environment so that it continues to be competitive; and
- Defend the industry's reputation.
