

ZPETRO MASTER

The company was formed on the basis of catering the needs of the ever growing industrial activity within the oil and gas sector. Since then, activities developed from a limited number of assignments for the oil and gas marketing companies (OMCs) to large turnkey projects for the same. ZPETRO MASTER is today focused on developing new business in Pakistan within the oil and gas, energy based on its expertise in specialized equipment sales, management, operation and maintenance. The company strives to improve all its areas of business by monitoring and evaluating changes in related technologies. We remain in constant search for strategic business alliance by establishing partnerships or joint ventures with international companies to satisfy the needs of global markets through provisioning of world class products.
