

SCS Engineers

SCS Engineers is an award-winning, full-service environmental engineering and construction firm specializing in solid waste and environmental services. Our professional practice began in 1970 in Long Beach, California and has since grown to a national network of more than 35 offices and 400 employees. Our focus is on providing innovative, integrated, proactive and cost-effective solutions so that our clients' facilities meet or exceed regulatory requirements. Today, the firm continues to serve a range of public and private clients.
