ARTELIA

ARTELIA is a leading expert in fuel retail engineering, program management, project management, construction management and facility management. We have proven our added value over the past 25 years in over 30 countries and 4 continents.

Artelia has established a Centre of Excellence in Fuel Retail under the name INNOFUEL. This network of specialists work together to generate continuous improvements and savings for our clients through optimized procurement, lean and efficient operations, reduction of project cycle-time and reduced cost through innovation in maintenance, design and construction techniques:

- BIM services, 3D modelling,
- Management of permits - development of in-house system for training, testing and issuing of permit to contractors,
- Optimization of Capex and Opex programs,
- HSE management - innovative solutions for safe tank inspections,
- “Service station of the future” - retail concepts, energy efficient store design, food & beverage concepts,
- Real time Maintenance management and operations through innovative software & services,
- Prefabricated Modular solutions - Temporary/ permanent modular shop containers,
- Design & PM services and Quality & safety management for LNG, Hydrogen, EV battery chargers and Solar power programs.

In addition, Artelia offers a complete range of environmental services as well as renewable energy solutions.

ARTELIA’s headquarters are located in Paris, with permanent affiliates in Europe, the Middle East, Africa and Asia.
