

# Petrol PLAZA

## Hectronic GmbH

At the beginning was a spirit of brilliant innovation and visionary thinking – which still applies today. Innovation, creativity and specialist knowledge are the foundations of our company philosophy and of our success.

Hectronic: over 300 employees, company headquarters in Bonndorf/Germany, four more locations in Germany – Berlin, Leipzig, Oberhausen and Bremen – and six other locations in Switzerland, Austria, France, Poland, India and the USA. This also means world-wide business relationships and more than 70 distribution partners around the globe. The company, headed by Managing Director Stefan Forster, offers a complete product range in the refuelling, sensors and parking market segments and has tremendous world standing in terms of quality and innovation.

Hectronic system products are used worldwide. Our customers are convinced of the intelligent concepts, quality, efficiency and reliability of our international sales and service network.

The refuelling sector includes:

- autofuel systems for petrol stations
- automatic tank gauging systems
- automatic vehicle recognition system
- fuel dispensing equipment & components
- leak detection/ level monitoring systems
- FCC/ POS/ BO systems
- online authorisation via app

## Equipment & services
