## SULTOF Sp. z o.o.

The SULTOF company was established in 1991. We are a company that prides itself only on Polish capital and continuous development of Polish engineering and technical thought.

**We specialize in the production, sale, installation and service of car washes for all types of vehicles (cars and trucks, specialized machines), including rail vehicles and trolleys.**

Our offer also includes **self-service devices**, such as: vacuum cleaners, upholstery washing devices and air dispensers (compressors).

We also manufacture or supply sewage treatment plants and **closed water circuits**.

**In addition to standardized production, we also carry out unusual tasks that require the use of innovative solutions, thanks to which we are able to provide washing devices for each type of vehicle and individualize them according to the customer's wishes.**
