Faschang Service & Management

Since 10 years we are engaged with the subject service and maintenance. Based on this long term experience we are offering a broad range of services, starting with consulting, conception, implementation, scale and integration of software for efficient maintenance combined with training and 24h support of our application.

Faschang Service und Management was founded in 2005 through Rudolf Faschang as one-man company. Faschang GmbH is figuring out as developer from process optimization. The own cloud software OMIS allows the efficient management of maintenance costs in distributed branch offices. OMIS is in use by international operating companies. Faschang GmbH employs 10 staff member at the head office in Altheim, Upper Austria.
