

## Bodet Time

BODET have been manufacturing clock systems, scoreboards, time and attendance solutions and display systems for more than 2 decades. BODET have become a leading manufacturer in the display market due to the 7-segment reflective technology of the H700 modules. It ensures a perfect legibility, which is used in the field of petrol price signage. For that purpose, BODET have developed a system controlling petrol price signs, which can be interconnected with the petrol station system. A whole range of interfaces already exists, and other developments are possible.

TOTAL, AGIP, SHELL, FINA, TAMOIL, DEA, SLOVNAFT and other oil companies use BODET systems for their price signage.
