

Petrol PLAZA

TECHNOTRADE

Technotrade company is a leading Ukrainian manufacturer of forecourt equipment for petrol station's automation.

With more than 25 years of experience and installations in more than 100 countries all over the world.

We produce a variety of equipment to support IT and retail business in filling station's automation and customers service. Founded in 1993, Technotrade company automated 70% of filling stations in our country and entered the world market supporting customers in their aims with latest technologies and high quality technical support. We design and build our products keeping in mind an experience of many years in filling station's automation. Focusing on creation of fresh, new products that meet the needs of a changing marketplace.

On our website we list our products for petrol stations automation and technological solutions for various customers service techniques at filling stations.
